A Waspish Sting.

What some was terms "the business end of s wasp" stings with scarcely more acuteness than the acid eractations of gas from the stomach to the guilet that are characterized as hearthurn. Never was there a case of inn without this symptom. Both cause and effect are removable by the fine carminaconfer regularity and vigor upon a disordered and enfected stomach with certainty and despatch. Besides checking the pranga of a rebellious atomach, the Bitters wakes up a dermant liver, and causes the howers to act the clockwork. An immense reputation has also been won by this professionally approved medicine as a means of eradicating and preventing or larial trouble, and counteracting a tendency to rheumalism and kidney complaints. Neuralists and nervousness are also remedied by it.

Mr. Moore, the postmaster at Bradshaw, Va., after reading an advertise-ment of Chamberlain's Colic, Cholera and Diarrheoa Remedy, concluded to try a small bottle of it. He says: "I d it in two cases for colic and three for distrinces with perfect satisfaction. I have handled and used a great deal of patent medicine, but never tried any that gave as good results as this." For sale by F. J. Wurzburg, druggist, 58 Monroe street.

I was troubled with a severe cold and cough and on the recommendation of Mesers. These words come with as much force today as they did thirty years ago.
How give them this chance?

Up in the northwest is a great empire waiting for young and sturdy fellows to come and develop it and "grow up with the country." All over this broad land are the young fellows, the boys that Lincoln referred to, seeking better their condition and get on in

Here is their chance. The country referred to lies along the Northern Pacific raifroad. Here you can find pretty much anything you want. In Minnesota, and in the Red river val ey of North Dakota, the finest of prairie lands fitted for wheat and grain, or as well for diversified farming. In Western North Dakota and Montana are stock ranges limitless in extent, clothed with the most nutritions

of grasses.

If a fruit farming region is wanted, there is the whole state of Washington to select from.

As for scenic delights, the Northern Pacific railroad passes through a country unparalleled. In crossing the Rocky, Buter Root and Cascade mountains the greatest scenery to be seen in the United States from car windows is found. The wonderful bad lands, wonderful in graceful form and glowing color, are a poem. Lakes Pend d'Oreille and Cœur d'Alene are alone worthy of and Cour d'Alene are alone worthy of a trans-continental trip, while they are the fisherman' Ultima Thule. The ride along Clark's Fork of the Columbia river is a daylight dream. To cap the climax, this is the only way to reach the far famed Yellowstone Park.

To reach and see all this the Northern Pacific railroad furnish trains and service of manurassed excellence. The

service of unsurpassed excellence. The most approved and comfortable palace sleeping cars; the best dining cars that can be made; Pullman tourist cars good for both first and second class passen-gers; easy riding day coaches, with baggage, express and postal care, all drawn by powerful Baldwin locomotives, make

a train fit for roya ty itself. Those seeking for new homes should take this train and go and spy out the land. To be prepared, write to CHAS. F. FEE,

Desired Information. We desire to impress upon the minds

White and Soft Skin.

The orchid is not only a rare flower, but possesses a beauty that is peculiar to itself, and it was but natural that in seeking for a name for our prepara tion this flower should suggest itself. The rare and costly balsams that make up its composition find their counterpart in the rare and costly nature of the orchid, while the beautiful white hands and skin that follow the judi-cious us of Orchid Cream is suggestive the external appearance of the flower.
